EXPERIENCE

Career Launch Tech Initiative (CLTI) **October 2026 - Present**
Business Development Intern **Marina Del Rey, CA | Remote**

- Research funding opportunities, partners, and donors for a **501(c)(3) tech-career nonprofit**, using AI tools (ChatGPT, Claude)
- Draft grant proposals, donor outreach, and partnership emails with current donors such as **Microsoft, Google & NVIDIA**
- Conduct **AI-assisted market research**, track business development metrics, and prepare weekly reports for the leadership team

UC Berkeley Undergraduate Admissions **August 2026 - Present**
Student Admissions Advisor **Berkeley, CA**

- Acted as a trusted advisor to **20+ prospective and admitted students per week**, translating UC application, financial aid, and campus-resource requirements into clear guidance, and consulting on personal statements and supplemental materials
- Represented the Office of Undergraduate Admissions in live presentations at recruitment events, college fairs, & yield programs

United Nations Academic Impact **August 2025 - December 2025**
Product & Business Development Intern **New York, NY | Remote**

- Served on the **founding team** for a student-opportunity platform, defining scope and prioritizing features across **5 core pages**
- Tested the product through **30+ user tests**, translating qualitative research into concrete design and prioritization decisions
- Voice of the product to stakeholders, presenting design rationale and tradeoffs to align with nontechnical reviewers
- Selected as one of a global cohort **(top 8%)** of student leaders advancing the UN Sustainable Development Goals; led a campus social impact initiative from concept to execution

LEADERSHIP & IMPACT

UC Berkeley Girls Who Code **February 2026 - Present**
Vice President **Berkeley, CA**

- Built partnerships with **Uber, Amazon, Pinterest, and UC Berkeley CDSS**, creating recruiting & networking pipelines for members, as well as conduct business analytics research to maximize our partnerships with numerous companies
- Designed and led **4 technical workshops** per semester (python, web development, and AI), translating technical concepts into accessible, hands-on content for **25+ underrepresented and beginner coders**
- Organized an **AI research panel** with industry practitioners on research-to-industry AI applications, drawing over **40+ students**
- Oversee **5 internal teams**, launching **3 new member-focused** initiatives and driving operational efficiency and goal alignment

UC Berkeley ANOVA **February 2026 - Present**
Computer Science Mentor **Berkeley, CA**

- Led technical project coordination for **50+ participant** hackathon for Bay Area students, implementing project tracking systems that achieved **93%+ completion rates**
- Built and delivered individualized CS curriculum to **100+ students across 8 school sites**

El Camino College Associated Students Organization **June 2023 - June 2025**
Director of Academic Affairs **Los Angeles, CA**

- Managed a **$200,000** budget across **75 clubs and 10 campus programs**, designing a new allocation system that increased funded events by **14% year-over-year** without cutting costs
- Built an **AI-driven system** analyzing and researching enrollment and survey data to identify high-demand courses, resulting in **2 new Chemistry and Data Science courses** added for Fall 2024
- Led **36 senators across 9 academic divisions** to advance academic policies and student initiatives
- Partnered with the VP of the college and college deans to redesign academic divisions to address a **$20 million campus deficit** using past business performance trends and data
